### COMMERCIAL.

Business has not changed since last writing therefore there is nothing of importance to relate relative to the delings in trade circles. The dull season being that now present, the stagnation in business causes little unfavorable comment, the inactivity prevalent being reparted as a matter of course, with bopes of a remandrative return in the more basy season. Building operations are progressing with marked activity but almost wholly in the discript rawaged by the April fire. But little movement has been noticed in real estain, the only important event of the week being the attempted sain of the property of the Wainnes (Kanati Sagar Use, on the 6th lust, by Mr. Morgan of E. The London market has ruled strady, but without any particular advance in quotations. Valges in New York are somewhat below the parity of the London market and consequently any slight change there has been without apparent influence upon the local situation.

The demand in New York however has been limited, the largest consumer being the principal buyer and taking only such quantities as have been required to meet current wants and supplement receipts by direct

meet current wants and supplement receipts by direct importations.

The lack of competition has given rather a tame aspect to business, but supplies have been held with confidence, as the stastical position both here and in Surepe appears to be working into better shape.

On the 20th inst, the visible supply in Europe according to cable advices was 10,000 tons less than at these corresponding date last year. The stock in Havain and Mantanuss was 24,78 tons, and in the United States 26,110 tons in excess of last year and deducting these amounts from the above gives a net decrease in the visible supplies in Europe. United States and Cuba 20,117 tons less than last year, which is a significant factor in the present condition of affairs.

A New Book Ticknor & Co., of Boston, have recently published "The Imperial Island. England's Chronicle in Stone." The author is James F. Hunnewell, of Charlestown, son of James Hannewell, who founded the bouse of C. Brewer & Co., of this city. Like Mr. Hunnewell's previous books, "The Lands of Scott," "The Historical Monuments of France,"

this new volume is illustrated by some sixty choice engravings. These give pictures of buildings, illustrating various epochs in English history, Stonehengs and the Druids, old Roman forts, Norman castles, famous abbeys and cathedrals. For the materials of the history the best authorities are cited; but in the description of the representa-tive structures selected, the author gives his own observations, and has succeeded in making a val-nable and interesting contribution to his specialty in literature, what are called "illustrated books."

# THE HIGH BRED

# SPECULATION, JR.

Will Stand for the Season of 1886,

at the Hotel Stables.

\$50.00 Terms:

PAYABLE AT THE TIME OF SERVICE.

### DESCRIPTION:

SPECULATION, JR., is a black horse, 15% hands high, and weighs about 1,000 pounds. He has a small head, large full eyes, clean cut throttle, handsome arched neck, strong oblique shoulders, great depth of chest, straight, strong back, smoothly coupled to long, symmetrically turned hips, a handsome croup, elegant flowing tail, powerful and well finished quarters, long, strong joints, short in cannon bones and pasterns, and the best of feet. He is indeed a borse of great beauty and rare symmetry of form; is very stylish in harness, an extra fast walker, a prompt driver, disposition perfect, and last, but not least, is very fast.

### PEDIGREE:

SPECULATION, JR., was bred by E. C. Gillisple of San Francisco, Cal., and was fooled in 1878. He was sired by Colonel Spreckels' celebrated trotting stallion Speculation; he by Rysdk's Humbletonian, the greatest progenitor of trotters that ever lived. Speculation, Jr.'s dam was sired by Easton's David Hill, the sire of Geo. Treat, record 2:2514; also, Black Swan, 2:28, and a number of other fast ones. Speculation became very noted several years since as siring the two cele brated trotters, Oakland Maid, record 2:22, and Crown Point, 2:24, two as game trotters as are often seen on a

It is a fact worthy of note that the breeding of Specniation, Jr., is almost identical with that of the great champion trotting stallion Maxey Cobb, whose record of 2:13%, made only last year, stands at the head of the list of all stallious. Maxey Cobb was by Happy Medlum, he by Old Hambietonian, and his dam was by Prince Nebo, son of old Long Island Black Hawk. Speculation, Jr., by Speculation, he by Old Hamble tonian, and his dam by Easton's David Hill, who was also a son of old Black Hawk, making them bred exactly in the same blood lines. This is a fact that should not be just sight of by breeders, and to say that he will sire fast horses, when coupled with good mares, would be superfluous, as if he should fail to do so it would be strictly against the law of Nature that like produces like, or the likeness, of some ancestor.

SPECULATION, JR., in addition to his fine breeding and great individual excellence, is a fast and game trotter himself. He has never been trained or prepared lu any manner, having been kept as a private roadster by his owner, so that his speed is only purely natural and undeveloped. He was never in but one race, and that was last year. His owner started him in a matinee trot to see how he would behave in company. This was against the advice of his friends, who stated that Walmea, Kaual. was against the advice of his friends, who stated that it was dollars to a rotten egg that he would get the flag in his face in short order; but contrary to their expec tations, and to the surprise of everyone, he went off and beat a large field of old seasoned campaigners with such ease, and apparently with such little effort. making a record of 2:35, that it immediately stamped him as being nothing short of a trotting wonder, and making it doubly certain that, could be have had the advantage of the long continued, careful training from day to day, week to week, month to month, and year to year, that is given the great torf performers, he would long ago have placed a sensational mark to his credit. perhaps equal to that of his celebrated brother in blood, Marey Cobb, whose untimely death early in the present year was so greatly deplored by all horsemen in America. His owner, Mr. Cohnfield of New York City, refused \$60,000 for him a few days before his

SPECULATION, JR., and Marcy Cobb are not the only horses of this famous Hambletonian and Black Hawk cross that have won distinction on the turf. Some years since there appeared at every meeting through the Grand Circuit in the East a little brown norse named Gloster, that literally swept everything before him. He would trut around on the extreme outside of a large field of horses the whole mile, and win with such apparent case that it was plain to everyone that he had several seconds or speed in reserve every time. At the end of the trotting season he had made a record of 2:17, won in a fog, and had earned the title of the trotting whirlwind of the East. Shortly after is he was suddenly taken sick with lung fever and died, and it was then that his owner, Mr. Goldsmith, unbosomed himself concerning him, and declared that if the horse had lived he would certainly have trotted a mile the next year in two minutes, as there really seemed to be no limit to his wonderful speed. The whole country was then anxious to learn his breeding, Black Hawk, being identically the same combination of blood lines hermofore alluded to. A mare called Molly, by Old Binck Hawk, produced by Old Hambletonian the two mares, Effic Deans, 2:2512, and Lottie,

In California we have another instance of the value of this cross in the two fast mares, Sister, record 2:21, A and Huntress, 2:28%, full sisters, their sire, Admiral, being by Volunteer, he by Hambletonian, their dam being by McCracken's Black Hawk, a son of the old original Black Hawk. These mares have a full sister (younger) called Nona S., that is said to be faster than either of them, and will no doubt be driven to a fast [ record soon. Their sire, Admiral, sithough bred to a great many fine mares of other blood, has never produced any other irotters of records. Other instances could be cited, but these are sufficient to establish the fact that horses possessing the blood lines of Speculation. Jr., stand at the head of the list us producers of extreme speed.

Collis Browne (late Army Medical Staft), to which he gave the name of CHLOROD YNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs Consumption, Brouchitis, Asthma. CHLORODYNE acts like a charm in Diarrhosa, and is the only specific in Cholera and Dysentory. CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms. CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c;

From Symes & Co., Pharmaccutical Chemists, Medical Hall, Simin, January 5, 1880. To J. T. Davenport Esq. 33, Great Russell Street, Bloomsbury, Londou. Dear Sir.—We embrace this opportunity of congratulating you upon the wide-spread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has carned for itself, not only in Hindeatan, but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place is every Anglo-Indian home. The other brands, we are sory to say, are now relegated to the native bazars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances ad infinitum of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhea and Dysentery Spasms, Cramps, Neuralgia, the Vomiting of Preynancy and as a general sedative, that have occured under our personal observation during many years. In Choleraic Diarrhea, and even in the more terrible forms of Cholera itself, we have wineased its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidely the best, and also from a sense of daty we owe to the profession and the public, as we are of opinion that the substitution of any other from Collis Browne's is a Delinearte Breach of Farth on the Pant of Tark Or The Pant of Tark Pant of Tark Charlet To researcher and Friends.
